

OBITUARY.

In the death which occurred last November of Mr. George Gery Milner-Gibson-Cullum, F.S.A., we have to deplore the loss of him who has been the President of our Society since 1908. As quite a young man he inherited from his aunt, Lady Cullum, the estate of Hardwick, near Bury St. Edmunds, and soon began to follow in the footsteps of his great grandfather, Sir Thomas Gery Cullum, and Sir John Cullum, both of them eminent archæologists, and both Fellows of the Royal Society and the Society of Antiquaries, while the latter was also author of the well known History of Hawstead. A great part of Mr. Cullum's life was spent in Italy, amid surroundings which he loved, and the knowledge which he there acquired was more often than not brought to bear on his life's work at home, for as a great connoisseur of all art treasures will he best be remembered by those who knew him well. However, he always took the keenest interest in all local history, and especially in genealogy, and he has left behind him some printed pedigrees which cannot be surpassed, as models of skill and accuracy. To our Proceedings he contributed that valuable paper on Mary Beale, our Suffolk artist. Those of us who were present at Hardwick on September 7th, 1911, when he was "At home" to members of the Institute, will recall to mind the magnificent display of autographs which were placed for inspection, and possibly of all his collections this was nearest his heart. The town of Bury St. Edmunds, of which at one time he was Mayor, will be the richer, in one sense, from his death, for he bequeathed some of his works of art, his books, and manuscripts to Moyses Hall; but all the same his loss will be felt in the surrounding neighbourhood, as both Hardwick and its treasures were always open to those who appreciated such things; and his immense knowledge was always at the service of those keen to learn.

GENERAL INDEX TO VOL. XVII.
